BIOPROCESSING ESSENTIALS

e-Learning Suite Available Now!

Producing a biopharmaceutical product is a complex and expensive business. The regulatory and operational challenges involved cannot be successfully met without the input of competent and knowledgeable employees!

Skillpad’s Bioprocessing Essentials Suite of 13 e-Lessons provides a firm grounding in bioprocessing, taking the user from upstream fermentation or cell culture, through downstream purification activities, to formulation and fill-finish operations.

Suitable both for on-boarding and as part of annual Refresher Training, the Suite is deployable on any LMS and can be tailored to your company’s exact specifications.

- Bioreactor
- Cell culture
- Centrifugation
- Chromatography
- Harvest
- Ultrafiltration
- Antibody production
- Lyophilization
