Paper & Beyond, 2019

Our climate, our solutions

Paper & Beyond is the annual event of the European Paper industry and its value chain, bringing together pulp and paper producers, paper and cardboard product manufacturers, technology suppliers, EU policy makers, researchers & scientists and press.

This year our conference will be dedicated to demonstrating how our industry addresses the climate change challenge via the contribution of its natural resources, processes and final products.

The central location of Marriott Grand Place in Brussels will enable the participants to join the parallel EU Raw Materials Week taking place in Le Plaza Hotel from 18 to 22 November.

Attendees by sector in the past years
