TRACKS Youth Program Camp Subsidy Application

Thanks to generous contributions from our [supporters](#), TRACKS Youth Program is very proud to offer camps at low or no cost to youth in the greater Peterborough area. All families who sign up their campers for a TRACKS camp are able to indicate their need for a subsidy.

This Camp Subsidy Application is not meant to subjectively evaluate your family's financial need for a subsidy. Instead, we hope to use the information provided in this application for our future funding proposals so that we can continue to secure the funds necessary to provide subsidies to as many families as express need for them.

Please take the time to write as much as possible however please note you may provide as much or as little information regarding your current financial situation as feels comfortable. What we are looking for is testimonial on why TRACKS camps are important for all youth, regardless of their family's financial situation, and why we should be able to continue to provide the camps at low or no cost.

Parent Information:

Parent name: _____

Please use as much space as you'd like to describe why you think programming like TRACKS, which incorporates both Indigenous and Western perspectives on science, is important for your camper's learning?

Camper Information:

If possible, please have your camper fill out the following questions, even if their penmanship is not perfect. If the camper is unable to write at all, please write their answer for them, however it is very valuable for us to hear answers from campers in their own words. If needed, feel free to use an extra sheet.

Camper name: _____

Why are you looking forward to attending TRACKS camp?

What is your favorite thing about school?

What is your favorite science-related topic to learn about?
