

National Association of Educational Progress
Economics Framework

References to tables are noted with a page number followed by the letter *t* in italics.

achievement levels, 2–3, 41–43
Advanced achievement level, 3, 42
Advanced Placement Economics examinations, 8
advantages of using a variety of test item categories, 37
allocation of resources, 13, 20, 21, 22, 23
American Institutes for Research (AIR), 4
Applying cognitive category, 32–33
assumptions, economic, 11

banks, 18, 23, 28
Basic achievement level, 3, 41
borrowing, 18, 23, 25, 27, 28
borrowing and loans, 23–24, 25
budget deficit, federal, 28
business and finance representatives, 4, 9
business context
 assessment item example, 35
 competition, 17–18
 employers and productivity, 18–19
 investment, 20
 marginal cost/benefit analysis of production, 15
 share of assessment in, 34
 supply and demand, 17
buyer and seller interaction, 13, 16–18, 30–31
 . *See also* Market Economy Content area
buyers, 16, 17, 19, 30

capital, 24
capital goods, 14, 26
charts and tables, interpreting, 37
cognitive categories in test items, 32, 33, 33t, 34
comparative advantage, 30
competition, 17–18, 20, 40, 41, 42
Consumer Price Index (CPI), 27
consumers, 15, 17–18, 21, 25, 30
consumption, 15, 20, 21, 26, 30
content areas of the assessment
 distribution of standards across, 13, 13t
 International Economy, scope and definition, 29
 Market Economy, scope and definition, 12, 13, 14

National Economy, scope and definition, 21, 22
 percentage of student time spent covering content and skills by
 area, 11, 12*t*
 as used for reporting purposes, 11
 contextual framework of the assessment, 11, 34–36
 cost-benefit analysis of using a variety of test item categories, 38
 currency, 23, 30

data collection tools and methods, 1–2
 data interpretation skills, 36–37
 decision-making
 effective economic, 13–14, 15
 governmental, 21, 25, 31
 demand and supply, 16–17, 19

economic, 18, 24, 25–26, 30, 31
 economic growth, 15, 18, 24, 31
 economic literacy, 10, 13, 21, 29, 39
 economics education
 characteristics of assessment, 32–43
 current status of, 6–9
 goals, 7
 introduction to assessment, 1–5
 See also standards for assessment
 economics terms used in standards. *See individual standards*
 economists, 7, 8, 11
 educators, 2, 4, 7, 8, 10
 entrepreneurs, 18, 19
 equilibrium price, 16, 17
 exchange, 16, 18, 25, 30–31
 expenditures, 25, 26, 28
 exports, 31
 extended constructed-response items, 2, 37, 38, 39

federal budget, 28
 Federal Reserve System, 22, 27, 28
 federal spending, 27–28
 financial capital, 18
 financial institutions, 18, 28
 fiscal policy, 28
 foreign exchange markets, 31
 Framework Development Project, 4–5

goods and services, 14, 16, 18–19, 21–23, 24–26
 government role in economics, 15, 17, 20–22, 24–28
 Gross Domestic Product (GDP), 22, 25, 26
