

QUALITY

Every quality **with a decent smartphone** is good enough, as long as we can see what you do, then it is fine! :)

LENGTH

The clip can be **maximum 120 seconds** long. Make sure to implement **both angles** in the same clip. There are a lot of applications for smartphones to merge 2 clips into 1

UPLOADING

When your video is ready for the upload, the both angles are merged into 1 video and the length of the video is under 1 minute, then you are ready to upload your video. Go to www.wetransfer.com, fill in richard@d-masters.eu, and send the video. We will send you a PayPal link, after payment we will send our feedback to you within a week!

ANGLES

Goalies • angles • front • side

To have the best feedback possible, a video clip from 2 different angles is the best way to give feedback. In this picture below you will see the best angles for the best video's.

The perfect distance from the camera to the move is **6 meters**, in this way the complete move will be in the frame and the distance is not too big!
