A duet which also features Aaron Paul. Reggae legend "Virgo" Paul Bennett also mixed and co-produced "POPSTAR" & the phenomenal 'Lesson In Life Love Music & Boybands featuring hip hop legend, TV pioneer Doctor Dre, which recently caused a media buzz when the making of the music made national headline news everywhere when this historic collaboration went viral.

Also NYC media icon and columnist Michael Musto duets with Aaron on a remake of Diana Ross classic hit 'MUSCLES'.

The album will be available on iTunes, CD Baby and all other digital retailers available on January 21 2019.

DANCE is a Aaron's 3rd solo album, "I took a different approach to making this album. I did it at my own pace and when I felt like working on it. No mad rush or expectation. And I wanted it to be fun. Because there is just way to much serious stuff going on in the world right now. I want people to relax a little and just dance for minute. Imagine if we all just came as one people together and just danced. We all would be headed for a much better place.

This is album is pure me and I'm good with myself ...I love it",
chuckles Aaron.
