# SCAN THOUSANDS OF DOCUMENTS AND INTELLIGENTLY STORE THEM WITH

INFOMAX' POWERFUL AND INTELLIGENT DOCUMENT CAPTURE SOLUTION

**inFoCAPTURE WEB**

## Your trusted document capture system

## What is InfoCapture Web?

**Intelligently digitize** document storage and **automate form recognition**

A web-based document capture and scanning system that specializes in high-volume batch-scanning and intelligent form recognition that helps you automatically identify, sort, and store any kind of documents.

## Why your business needs it:

### HIGH-VOLUME EFFICIENCY
Improved capturing speed increases your scanning efficiency, making it ideal for high-volume batch-scanning operations
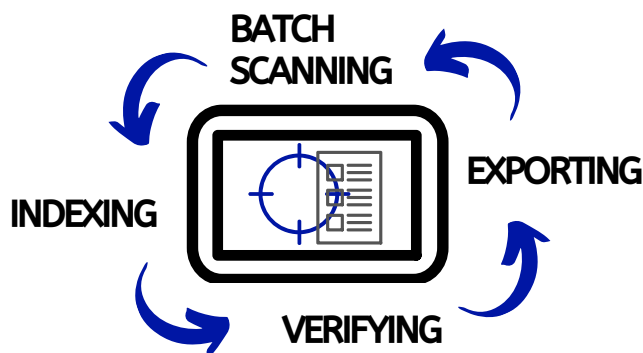

### INTELLIGENT FORM RECOGNITION
infoCapture's intelligent system recognizes the contents and classification of the document and stores it according to your desired configuration.

### STORAGE AUTOMATION
Reduce storage cost and improve businesses processes by automating and digitizing how you store documents.

## Contains a powerful built-in workflow

# Be automated.
# Scan thousands with InfoCapture

## Easy functionalities

**Form Recognition**

Intelligent form recognition allows InfoCapture to intelligently determine the type of document it scans

**Optical Character Recognition (OCR)**

InfoCapture's OCR scans and reads the contents of the document, allowing you to determine its contents faster.

**Maker Checker**

The Maker Checker of InfoCapture allows the system to accurately scan and read documents by having the systems check each other.

**Audit and reporting**

Be worry-free with web-based audit logs and productivity reports.

**Batch-scanning**

A powerful document capture software that can easily scan and capture large volumes of documents

**Web-based application**

Web-based interface helps users easily manage document scanning operations

**Multi-user**

Multi-user functionality grants you three administrations, particularly user, template, and system administration.

**Built-in Workflow**

Built-in workflow gives you a seamless process in your document capture operations

## Remember, with InfoCapture Web you:

- Get Quick Access Document
- Improve Capturing Speed
- Reduced Paper Storage Expenses
- Prevent document loss or damage
- More safe and secured Documents
- Easily customizable

## Tried and tested by some of the country's largest banks and corporations

Over a decade old now, InfoCapture has steadily provided reliable document capture services to multiple enterprise banks in the Philippines!

## System Requirements

**Server:**
- CPU: Intel  i5 8th gen processor or better / 4th gen @3.3ghz (Min.)
- Memory: 32GB RAM / 16GB RAM (Min.)
- Storage: 2TB Available HD / 500gb available HD (Min.)
- OS: 64bit Win2003/2008
- Database: MSSQL 2008r2/2012
- Framework: .NETFramework 4.0
- IIS: Version 6/7

**Workstation:**
- CPU: i5 4th gen processor @ 3.0 ghz
- Memory: 4gb RAM
- Storage: 500gb or higher
- OS: 64bit Win 7 / 8 / 10
