Part of the InfoSuite series

InfoSuite
ASSET. CAPTURE. TRACKING.

Maximize your assets.
Digitize with InfoAsset

Easy functionalities

REGISTER

Register asset into the system generating a unique ID or QR code to be attached

ASSIGN /MOVE

Assign asset location within the system and change it when it is moved or assigned to a different member.

DISPOSE

Dispose the asset when it is no longer useful to the institution and flagged but not removed from the database.

GENERATE REPORTS

- ⊘ List of assigned assets
- ⊘ List of repaired items
- ⊘ List of disposed items
- ⊘ List of improved items
- ⊘ Asset movement history
- ⊘ Asset transaction history
- ⊘ Calculate asset book value

REPAIR

Repair when necessary depending on the indicated status. Additional info such as the Service Provider can be loaded into the system.

IMPROVE

Improve accounting rules, wherein asset can be improved thus extending the useful life to the Asset.

PURGE

Purge asset from the database while having an option to create a CSV record for future reference.

Secure software

InfoAsset adheres each company's integrity, a user can be provided different roles and with different permissions.

Note: An Audit log of all Transactions are kept in the database for viewing by the System Administrator.

System Administrator – This user who can create User IDs, roles and permissions and change passwords.

Asset Manager– This user who can do all the functions described in InfoAsset

Asset Accountant– This user who can load in Account Information such as Salvage value, useful life and Depreciation reports.

Asset Inventory Clerk– This user who is authorized to upload inventory information from the QR Reader.

Accurate inventory

InfoAsset brings you accurate inventory updates using information obtained from the QR Code attached on each Asset. The QR Code is being kept in the QR reader until ready for upload to the inventory table.

This inventory table is then matched with the database, creating the following reports:

- ⊘ List of missing assets
- ⊘ List of unregistered assets
- ⊘ List of wrong assignee/location
- ⊘ List of matched assets
