RECOMMENDATIONS FOR SAFER SWIMMING POOLS

- Although safety measures are in place, the swimming pool should be supervised at all time by an adult to ensure children's lives are not put at risk.
- All instructions relating to safety of the swimming pool must be read and understood by all. These safety measures are only effective when used properly.
- There are two alarms installed in the swimming pool - please advise us before you swim so we can switch them off.
- Please be aware that these alarms will re-arm themselves once there is no one in the pool and the water is calm – this can take several minutes. Children must be supervised.
- Never leave an unaccompanied child near a pool or leave them alone for even a few seconds. A child can drown in less than 3 minutes in 20 cm of water.
- While swimming, it is strongly advised that children wear armbands, flotation devices, etc.

SAFETY

- Use available swimming pool equipment correctly.
- Ensure that you have a mobile phone nearby with the emergency telephone numbers.
- Avoid any electrical wiring nearby.
- Remain vigilant around water filters.
- Do not leave objects or toys floating in the water, which could attract children's attention
- Wait a reasonable time before swimming (recommended 2 hours) after a meal
- We reserve the right to close the pool if we consider guests' behaviour is risking their or other guests' lives.
- Do not run and shout around the pool. Be careful not to slip.
- Do not dive or jump into the pool.

HYGIENE

- Please shower before entering the pool to wash off any residues of deodorant, sun cream or perspiration, which can cause a chemical reaction with chlorine and may cause nose/ear infections, or a sore throat.
- Be careful if you have broken skin, which may be infected.
- No animals are permitted near or in the pool.
- No food or drinks are permitted in the pool.
