Health and Identification Requirements for Exhibiting Goats

1. All goats, market wethers, commercial breeding does, registered percentage and full blood Boer Goats, must be individually identified (see specific identification requirements below) on a Certificate of Veterinary Inspection and originate from herds or areas not under quarantine. **The Certificate of Veterinary Inspection for goats will require clinical inspection by an accredited veterinarian within 30 days prior to date of entry to exhibition grounds.**

2. **Identification Requirements for All Sexually Intact Goats.** All sexually intact goats, commercial breeding does, registered percentage and full blood Boer Goats, **must be identified with an Individual Scrapie Flock of Origin identification tag** or by a readable, official tattoo registered with the USDA. The complete ear tag number and/ or complete tattoo must be listed on the Certificate of Veterinary Inspection. To register your herd tattoo prefix, call 1-866-USDA-TAG. **If tattoos are used instead of scrapie tags, complete numbers and/or letters from both ears must be listed on the Certificate of Veterinary Inspection. The Certificate of Veterinary Inspection must also include a statement certifying the herd's participation in the Scrapie Program and include the scrapie premise ID number and/or the official herd tattoo prefix registered to the herd.**

3. Identification Requirements for Wethers. All wethers must be identified with either an Individual Scrapie Flock of Origin identification tag, a registry tattoo or by an official alphanumeric metal clip applied by a veterinarian. This Scrapie Tag number or registry tattoo (both right and left ear numbers and letters) must be listed on the Certificate of Veterinary Inspection. The ear tags must match the identification number on the Certificate of Veterinary Inspection. The Certificate of Veterinary Inspection must also include a statement certifying the herd's participation in the Scrapie Program and include the scrapie premise number.

4. All sexually intact goats and wethers coming from outside of Iowa to exhibit at the Lucas County Commercial Fun show and returning to their home premise are exempt from TB and Brucellosis testing requirements. The Certificate of Veterinary Inspection must meet all general requirements, identification requirements and have the following statement written by the licensed accredited veterinarian: **“The goat(s) listed are for exhibition only and not for resale.”**

All sexually intact goats and wethers coming from outside of Iowa to exhibit at Lucas County Commercial Fun show that might not return to their home premises (may be sold at or after the show) must meet the Iowa Animal Admission Requirements which are as follows:

Brucellosis: All goats over six months of age, except those for immediate slaughter, must either originate from a certified free herd, showing date of last test and herd identification number, or prove negative to a brucellosis test conducted within thirty (30) days prior to entry. All sexually intact goats less than six months of age must originate from a herd which has been whole-herd tested negative for brucellosis within the last 12 months or must originate from a certified brucellosis-free herd (the date of the last test and certified herd number must be listed on the certificate of veterinary inspection).

Tuberculosis: All goats must either originate from a tuberculosis-free herd, showing date of last test and herd accreditation number; or originate from a negative herd, tested within twelve months prior to entry, showing date of herd test; or have a negative tuberculosis test applied within thirty days prior to entry. Goats less than six months of age must originate from a herd which has been whole-herd tested negative for tuberculosis within the past 12 months or must originate from an accredited tuberculosis-free herd (the date of the last test and accredited herd number must be listed on the certificate of veterinary inspection). All goats native to or originating from a county or region under quarantine for tuberculosis are not eligible for entry into Iowa.
