

About Us

Morleys are a UK based flooring manufacturer producing stairnosings, flooring adhesive and flooring accessories. We are proud to provide a wide range of products manufactured here in our factory which are readily available to the marketplace through a network of stocking flooring distributors throughout the country. We are situated within an old cotton mill built in the 19th century, in Higher Walton, Preston. Since we have been here our offices and factory have been updated to meet the modern day. We appreciate stepping into a little bit of history everyday.

Morleys wide range of products cater for both contract and domestic use. Our stairnosings range has been a customer favourite since they were first introduced in 1996. The initial range included 6 standard profiles and 6 heavyweight profiles. Today our ever expanding product range includes a vast array of profiles to accommodate the current market's needs.

Our wide range of quality flooring adhesives and primers for carpet tiles, carpet, vinyl or LVTs are available to meet your flooring needs. Continuous research and development is undertaken to establish our range of flooring adhesive. Extensive testing is carried out to provide the floorcovering installer with products that are not only user friendly but also of outstanding quality and value for money. Morleys Adhesive also has the ability to offer a complete formulating service, providing bespoke products to meet our clients' individual demands.

As a progressive British manufacturer who carries extensive back-up stocks, we pride ourselves in being able to offer a service that is second to none at prices that are more than competitive.
