Easy Set Bobbin Case and Cover

The specially designed bobbin case and cover mean there's no need to pull long thread tails up and through when you first thread the machine. Slip the bobbin thread in the cover plate guide; the built in cutting blades trim the tail to the correct length for a super-clean start to your stitching line. After the initial threading, the auto-thread cutter takes care of trimming and re-setting the tails each time.

Easy Stitch Reference Guide

Just open the top cover and with one quick glance at the stitch menu you'll find every stitch you need, from basic quilting to advanced home decor. Arranged by the essentials, with 120 built-in stitches, 7 one-step buttonholes and 2 built-in alphabets, it makes sewing a breeze.

Four Ultra-Bright LED Lights

Ultra-bright LED lights in three locations illuminate the bed of the machine, providing a dazzling work area.

Bobbin Winder Plate with Cutter

The new bobbin winder plate has five cutting blades. Faster and smoother winding, easy thread cutting, and your bobbin is ready to go.

Workspace

The largest workspace in its class! W 210mm (81/4") x L 330mm (13") of spacious bed space. With 210mm (81/4") to the right of the needle there's room for any project.
