

ENERGY SAVING

SOLAR FRIDGES & FREEZERS

A range of fridges and freezers specifically designed to operate from photovoltaic systems.

DUAL: 5230 LITRE FRIDGE OR FREEZER

Superior insulation and efficient 12V or 24V refrigeration system provides minimum power consumption whilst giving performance equal to a mains power appliance.

MODEL SPECIFICATIONS

Weight: 120kg

Width: 740mm

Height: 920mm

Length: 960mm

Capacity: 230 litre

Power Consumption: 3.2A

Solar kit: SK2/125W (Fridge), SK4/220W (Freezer)

USES

Remote farms, House boats, Safari Camps,
Game farms, Rural clinics and Holiday homes.

FEATURES

Silent operation

CFC free

Thick Polyurethane insulation

Low voltage cut out to protect batteries

Photovoltaic panel kits available for each model

Efficient 12/24V DC compressor, 220AC optional

Low power consumption makes best use of available power

Chest freezers & upright refrigerator with freezer compartment available

Optional Solar power kits include: Photovoltaic panels, ground mount frame,
deep cycle low maintenance batteries, charge regulator and wiring.
